Let me tell you why it matters. If you've seen my posts about ZHODA 2001 CORPORATION, you'll know that the address listed on the 2007 Quebec filing belonged to a company (KROES ENERGY INC.) that was doing oil and natural gas work in Ukraine.

That information needs to be compared with the original filing, though, and it isn't even clear that there is sufficient information to order from one of these firms that Ontario insists on using for business inquiries. Surely someone already ordered these at some point, or knows where I can find them

 There's not really a theory. There's an address on a business record. I researched the shit out of that address and there was a company using that address at that time in 2007 that owned an oil field in Ukraine. Then they sold it to another company that was developing natural gas interests off the coast of Crimea. You have to understand a bit about how "private businesses" work in Ukraine. It's split between the company and the government. The government always has a majority share. The government side of these partnerships has been so mired in corruption and money laundering for AT LEAST the last decade that the Ukrainian government had to start nationalizing privately owned banks too keep all the capital from leaving the country.

Enhanced Business Name Search for Unincorporated Businesses

This type of search provides several improvements over the exact name search.
Among these are:

- the ability to select a name from a list of up to 120 business names matching or similar to the business name searched
- the ability to search words in a business name and have a list of business names returned with the word appearing **anywhere** within the business name
- the specific street number and name are included in the business address

The Enhanced Business Name Search significantly improves the clients' ability to obtain a Business Names Report for a specific business name when more than one exact or similar business name is registered in Ontario.

You can search a business name online using the [Enhanced Business Name Search service](#), at the CPVSB Toronto Public Office, or through any of the three Private-Sector Service Providers under contract with the Ministry of Government and Consumer Services:

- [OnCorp Direct Inc.](#)
- [ESC Corporate Services Ltd.](#)

I guess leafs have to pay as well to order business records in Ontario?

Just wondering if anyone got copies of the original 2003 filings, even uncertified ones already and posted them online. If the system is compromised, I'm pretty sure Toronto or Calgary would have been the first major testbed (municipal elections). I'm not here to prove that, but there is such a thing as a conflict of interest and, if so, the leafs would have been the first customers.

the issue with looking into things like this is how corrupt RCMP etc is. Trudeau is likely connected to NXIVM. Bill Morneau or whoever, the previous finance guy stepped down amidst Trudeau's like 3rd bribery/corruption scandal. his sister or cousin is married to whoever is heading the RCMP.

i fully believe dominion has been used to switch votes for Trudeau, but we simply don't have the social media presence to even talk about it. the loudest voices are the idiots who believe everything the mockingbirds sing.

it's no sweat. It's really easy for it to seem like I'm saying the Dominion system is compromised. That's my instinct, but I can't prove that. What I can do is show that the world that cor from has an understandable motive for wanting to undermine the election process for MANY people in MANY countries, solution of course being to not use the machines.
